BEAT SABER

Beat Saber is one of the greatest hits in virtual reality gaming.

It's a VR rhythm game where you slash the beats of adrenaline-pumping music as they fly towards you, surrounded by a futuristic world.

The game includes several songs with up to five levels of difficulty, starting from Easy all the way to Expert+.

The player uses VR motion controllers to wield a pair of lightsabers, the left one colored red and the right one colored blue by default. In each song, the game presents the player with a stream of approaching blocks, laid out in sync with the song's beats and notes, located in one of the 12 possible positions of a 4x3 grid.

The game also features the option of playing some songs in 360°, or 90° orientations where blocks approach from around the player.

Each block varies in color, corresponding to the color of the saber that should be used to slash it.

TECHNICAL SPECIFICATIONS

Dimensions cabinet :	70 cms x 70 cms x 180 cms H
Space required :	2m x 2m
Power consumption	220-240 volts, 200 watts
Console used :	PS + PSVR
Capacity :	15 - 25 players/hour
Installation time :	20-30 minutes
Stock :	2
