

INFLATABLE LASERGAME

ANIMATION®

In our laser game with inflatable maze, up to 80 players per hour can compete! Up to 10 players can play against each other, individually (everyone against everyone) or in teams (yellow against red).

The inflatable tent is divided into a number of rooms so there is plenty of room to hide.

Lighting effects and tension-building music help to create extra suspense and immersion. And a hazer creates a light mist so you can see the laser beams perfectly.

The hi-tech laser guns are equipped with a display and speaker to keep you informed of your status and score during the game. The management of the laser system happens completely wireless so very little time is lost for shifting from one group or participants to another.

And if you have your own location to play lasergames our system is also available without the inflatable maze, with or without obstacles to hide.

TECHNICAL SPECIFICATIONS

Space required :	12 m x 15 m
Use :	indoor or outdoor
Number of players :	8 ideally, maximum 10
Capacity :	max. 80 players/hour
Age :	from 7 to...
