

# BATAK PRO

ANIMATION®

The Batak Pro reaction game is often used by Formula One pilots to train the speed and precision of their reactions, but is suitable for people of all ages, providing each user with their own 'personal best'.

Twelve visually bright LED cluster targets are numbered and arranged in a 'maximum stretch' type configuration and put under the control of a dedicated microcomputer. The targets may be lit up in either random or repetitive ways.

Hits and misses are timed and scored on a central display and verbal instructions are sent to the player during the game (e.g. "Get Ready"..."Go"..."Level one"..."Time Out"...etc.)

Dozens of games, including mathematical and mindgames, are available with variable speed levels. This makes the Batak Pro suitable for various skill levels and ages.

Batak Pro enhances hand and eye co-ordination, boosts stamina and fitness levels. Provides excellent facility for non-boring exercise as well as competitive sport. Simple rules and easy to use.

Batak Pro is also very easy to brand.

## TECHNICAL INFO

Space required :	2,5 x 2,5 m
Door opening required :	70 cm
Power supply :	1 x 240 volts, 100 watt
Standard capacity :	50 players/hour
Maximum capacity :	100 players/hour
Installation time :	20 minutes
Branding possible :	yes
