BIKE SOCCER

ANIMOTION®

Bikesoccer is an interactive and exciting cycling game for 2 players, who have to ride their BMX bikes through as many gates as possible that are lit up in their color.

On the playing field there are 6 interactive gates that can light up in 2 colors: blue and orange. There is always one lighted gate in each color. Those gates are then active. That means if you cycle through them you score a point. The gate then goes out and another gate lights up instantaneously in the same color and becomes the new goal. If a player rides through a gate that is lit up in the opponent's color, that is a counter-goal.

So there is one player who must score in the orange gates and one who must score in the blue gates.

Game time and scores are automatically tracked through an app, the image of which is also displayed on a large screen.

TECHNICAL SPECIFICATIONS

Dimensions:	Minimum 8 x 8 m Ideal 10 x 10 m
Power consumption:	1 x 240 volts, 300 watts
Capacity:	30 players/hour
Installation time:	40 to 60 minutes
Minimum doorway:	60cm
Stock:	1
Branding option:	Yes
