

MAXI-KICKER

ANIMATION®

What makes the Maxi-Kicker soccer table special is of course its length. Normally a soccer table has 8 rods, but this one has 16. This ensures that 8 people can play at the same time.

The Maxi-Kicker is finished to perfection. We have ensured that the table cannot sag by adding an extra support beam in the middle of the table. The rods of this table are also stainless and have a diameter of 16 mm. The walls are made of fiberboard and have a wall thickness of 25 mm. The angled legs also ensure the perfect distribution of weight and also give a nice look to the table.

The playing field is a washable lamination. The dolls are cast with this table making them quasi indestructible.

TECHNICAL INFO

Dimensions :	264 x 125 X 88 (H) cms
Weight :	165 kgs
Number of players :	8
Installation time :	10 mins
Minimal dooropening:	130 cms
Stock :	2
Branidng available :	yes
Use :	i ndoor/outdoor protected against rain
