

DOWNHILL BIKERS

ANIMATION®

Downhill Bikers is a "classic" mountain bike simulator from the 90s, which was far ahead of its time and still provides a fun and exciting experience today.

Two players race against each other and/or virtual opponents.

Who wins depends not only on the speed at which you cycle, but also on steering agility and correct path selection.

The resistance one experiences is also determined by the terrain. On the sandy stretches you will need therefore step it up a notch!

And hopefully you will find time for some fantastic air tricks...

TECHNICAL SPECIFICATIONS

Space required :	W 180 cms x D 220 cms x H 175 cms
Power supply :	1 x 240 volts, 800 watts
Weight :	585 kgs
Capacity:	30 to 40 players/hour
Installation time :	+/- 30 minutes
Minimal dooropening :	85 cms
Stock :	1
Minimum age :	+/- 8 years
