

FULL MOTION SIM

ANIMATION®

Immerse yourself in an ultra-realistic driving experience thanks to our dynamic simulators mounted on six actuators. Every detail is felt: braking, obstacles, acceleration... everything is designed to give you an unparalleled adrenaline rush in complete safety. Drive on all the world's major circuits and rallies with a wide choice of cars.

Our simulators are designed to offer extreme sensations while ensuring optimal safety. Each session takes place in a controlled environment, with no risk of collision or injury. The structure is stable, the movements are precise and controlled, and the equipment is regularly maintained to ensure a 100% safe and peaceful experience.

TECHNICAL INFO

Space required :	3 m x 3 m
Weight :	250 kgs
Power supply :	230 volts, 10 amps
Number of players :	1
Installation time :	60 to 80 minutes
Maximum capacity per hour :	15
Minimal dooropening :	155 cms
Stock :	2
Use :	Indoor on hard, even floor
