

# ALPINE SKI SIMULATOR

**ANIMOTION®**

The Alpine Ski Simulator offers a unique virtual ski-sensation.

This simulator is developed by AniMotion combining the classic Alpine Racer arcade simulator controller with the high-tech possibilities of a Playstation gameconsole and a high-tech design.

This provides a fantastic interactive experience with great game-play and high quality 2D or 3D visuals on a 49 inch screen.

Participants play by moving their legs left and right, but can also rotate their feet to make shorter turns. And if you're confident you can use the turbo button for extra speed.

Two game types are available : race and time-trial and two types of ski, as well as two types of ski competitions : Downhill (giant slalom) and Free Ski.

## TECHNICAL INFO

Space required :	1,5 x 2,5 m
Power supply :	1 x 240 volt, 400 Watts
Capacity:	15 players/hour
Installation time :	30 - 40 minutes
Minimal dooropening :	130 cms
Stock :	3
Minimum age :	10 years
