

# MULTISPORT SIMULATOR

**ANIMATION®**

The Multisport Simulator is a unique tool to experience almost all existing ball sports.

High-speed infrared cameras record the ball's trajectory. A powerful computer then does the calculations required for accurate simulation, which is projected onto a 420 cm wide screen.

At (sports) events, in a shopping mall, vacation center, sports bar or hotel : everywhere this simulator provides a unique interactive sports experience. With 60+ sports, 1,500+ game variants and more than 3,500+ sports venues, it is already the most comprehensive multi-sports simulator in the world.

Moreover, just about everything in the simulation software can be branded : the banners, the players' equipment, the supporters' club colors to even the players' shoes and balls....

You can rent or buy this simulator from us.

## TECHNICAL INFO

Dimensions:	450 cms W x 600 cms D x 330 cms H
Space required :	520 cms W X 650 cms D x 340 cms H
Screensize:	420 cms W x 240 cms H
Power supply :	220-240 volts, 800 watts
Maximal capacity:	90 player/hour
Installation time :	100 to 150 minutes
Minimal dooropening :	70 cms
Stock :	1
Indoor/outdoor:	indoor only
Floor:	hard and level floor required
